

Are you emergency power ready?

Powertron's Emergency Parking sign is ideal for locations where a tap box may be located close to unassigned parking. The sign meets most industry standards for commercial use applications and local codes. Some key benefits are:

- Notifies individual's a temporary generator shall be parked in that spot during a power outage.
- Written procedure for your emergency backup power contingency plan.
- Helps a generator responder locate the tap box during non business hours.
- Predetermine cable lengths knowing the distance between the parking spot and tap box.
- Reflective face makes it easier to see at night.

Ordering Information

Part Number TBQC-PARKING-01

Specifications & Rating

Material	Aluminum 63mil, Laminated with 3M Engineer Grade Reflective Material
Size/Shape	12" Wide x 18" Tall, Vertical
Mounting	(2) Bolt Holes, Mounting Hardware not Included
Primary Colors	Green and White
